

Benches Information Sheet

Bench Seating Dimensions

Height:	450mm Overall
Depth:	300mm or 400mm
Length:	1000mm / 1200mm / 1500mm / 2000mm (2000mm benches are supplied with a middle leg for support (shown in picture))

Material Specification

Frame:	Manufactured from 40mm x 40mm ERW mild steel tube
Finish:	Powder coated Ral 9006 with a BZP undercoat as standard to provide additional rust protection in damp environments (for chlorinated areas, please contact the sales office 0161 620 7250 for a quotation)
Wooden Slats:	80mm x 25mm ash timber; sanded, sealed and polished with a tough, hard-wearing lacquer
Feet:	Threaded end caps are used as standard to enable the bench to be moved without scratching the floor
